SUMMARY REPORT OF CLOUD COMPUTING

GNIT is conducting certificate course on Cloud Computing from 09-10-2017 to 21-10-2017. Cloud computing is highly scalable and creates virtualized resources that can be made available to users will have a significant impact on the educational environment in the future.

The key objectives of this course are for students to be able to:

- Understand the concepts, characteristics, delivery models and benefits of cloud computing
- Understand the key security and compliance challenges of cloud computing
- Understand the key technical and organisational challenges
- Understand the different characteristics of public, private and hybrid cloud deployment models.
