# GURU NANAK INSTITUTE OF TECHNOLOGY

**City Office:** B2, 2<sup>nd</sup> Flr, Above Bata, Vikrampuri Colony, Karkhana Road, Secunderabad-50009, Telangana, India.  
Ph: +91-40-6632 3294, 6517 6117, Fax: +91-40-2789 2633

**Campus:** Ibrahimpatnam, R.R. District, Hyderabad-501506, Telangana, India. Ph: (0/95) 8414-20 21 20/21

Date: 23.10.2017

## CIRCULAR

**Skill development program for MBA students starting from 06<sup>th</sup> Nov, 2017 onwards.**

**The HOD and Placements coordinators have to manage the trainings and ensure 95% attendance all through the sessions.**

**All Mentors need to send the compiled feedback report to Dr.B.Madhusudhan Reddy, [hodmba.gnit@gniindia.org](mailto:hodmba.gnit@gniindia.org) daily. Mentors are advised to take care of PNR (Students not participating in training).**

**Agenda:**

**Introduction to PMP (Project Management Professional).**

HOD-MBA

Accredited by  
National Board of Accreditation

## QUESTION PAPER

Time: 120 Mins

5 x 4 = 20 Marks

-----  
**ALL QUESTIONS CARRY EQUAL MARKS**

**Answer the following**

1. Explain the overall aim of project governance.
2. Explain the difference between continuous improvement and project quality planning.
3. Explain three key activities of portfolio management.
4. Explain what is meant by the term project “closeout”
5. Explain what is meant by a ‘baseline project management plan’ and how it is used.

## Department of Management studies PMP (Project Management Professional)

### Summary

A project in the economic sense directly or indirectly adds to the economy of the Nation. However an introspection of the project performance clearly indicates that the situation is far from satisfactory. Most of the major and critical projects in public sector that too in crucial sectors like irrigation, agriculture, and infrastructure are plagued by tremendous time and cost overruns. Even in the private sector the performance is not all that satisfactory as is evident from the growing sickness in industry and rapid increase in non-performing assets (NPAS) of Banks and Financial Institutions. The reasons for time and cost over runs are several and they can be broadly classified under-technical, financial, procedural and managerial. Most of these problems mainly stem from inadequate project formulation and haphazard implementation. Project Identification Project identification is an important step in project formulation. These are conceived with the objective of meeting the market demand, exploiting natural resources or creating wealth. The project ideas for developmental projects come mainly from the national planning process, where as industrial projects usually stem from identification of commercial prospects and profit potential. As projects are a means to achieving certain objectives, there may be several alternative projects that will meet these objectives. It is important to indicate all the other alternatives considered with justification in favour of the specific project proposed for consideration. Sectoral studies, opportunity studies, support studies, project identification essentially focuses on screening the number of project ideas that come up based on information and data available and based on expert opinions and to come up with a limited number of project options which are promising. Project Formulation Project Formulation Concept "Project Formulation" is the processes of presenting a project idea in a form in which it can be subjected to comparative appraisals for the purpose of determining in definitive terms the priority that should be attached to a project 9 under sever resource constraints. Project Formulation involves the following steps (Figure 1). PROJECT FORMULATION ↓ OPPORTUNITY STUDIES/Support Studies ↓ IDENTIFICATION OF PRODUCT/SERVICE ↓ PREFEASIBILITY STUDY ↓ FEASIBILITY STUDY (TECHNO ECONOMIC FEASIBILITY) ↓ PROJECT APPRAISAL ↓ DETAILED PROJECT REPORT Figure 1. Project Formulation –Schematic view Opportunity Studies An opportunity study identifies investment opportunities and is normally undertaken at macro level by agencies involved in economic planning and development. In general opportunity studies there are three types of study – Area Study, sectoral and Sub-sectoral Studies and Resource Based Studies. Opportunity Studies and Support studies provide sound basis for project identification. Pre feasibility Studies / Opportunity Studies A pre-feasibility study should be viewed as an intermediate stage between a project opportunity study and a detailed feasibility study, the difference being primarily the extent of details of the information obtained. It is the process of gathering facts and opinions pertaining to the project. This information is then vetted for the purpose of tentatively determining whether the project idea is worth pursuing furthering. Pre feasibility study lays stress on assessing market potential, magnitude of investment, , technical feasibility, financial analysis, risk analysis etc. The breadth and depth of pre feasibility depend upon the time available and the confidence of the decision maker. Pre feasibility studies help in preparing a project profile for presentation to various stakeholders including funding agencies to solicit their support to the project.
